

Location: Dresden Fire Department

Date: November 29, 2023

Subject: In accordance with 40 CFR §257.73(a)(3)(E), the Annual Meeting between Greenidge Generation and Local Emergency Responders from Dresden, NY was held. This document will serve as an official record of the meeting.

<u>Meeting Summary/Topics Discussed</u>
Discussed purpose of meeting and CCR regulatory overview for surface impoundments and EAPs
Overview and history of operation of Greenidge and C-Pond
Reviewed C-Pond Emergency Action Plan and provided copy to Chief Warren Zimmerman for review and any follow up discussion
EAP – review 3 event levels; notification requirements and actions required; discussed primary causes of embankment failure and inspections required by site
Provided site plan of C-Pond and Greenidge access entry points (main and primary); noted that EAP was also available on ccr website for review and download as necessary
Provide updates on C-Pond involving completion of a temporary bypass project that eliminates the use of the C-Pond for process and stormwater
Offered opportunity for site visit and review of the C-Pond area to better see and understand the significant hazard potential; Group agreed that we would organize a visit sometime in late spring for this purpose and to cover other emergency response protocols for the plant. Estimated timeline for visit June 2024.
Planned and completed meeting in June 2024 will serve as record of annual CCR emergency response meeting.
